CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. These are only conditions under which bids will be received.

Coins and medals are sold at so much **per PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c. up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy.

All coins, etc., are genuine unless otherwise described.

My charge for executing the bids will be 5 per cent. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

Priced catalogue of this sale sent for \$1.00 cash in advance.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

OLD BABYLONIAN TEMPLE RECORDS FROM TELLO.

(Made on Baked Clay Tablets).

- 470 —These cuneiform tablets belong to the find made by Ernst de Sarzec, at Mosul, Tello, near Shatra, in 1895. They were found buried under a small elevation, about 200 yards from the ruins of the buildings of the most ancient kings of Babylonia. He found two groups of rectangular galleries built of crude bricks, in which these tablets were arranged in five or six layers. They were regular business archives. The excavations were afterwards plundered by the natives and the tablets sold. All were inscribed by means of a three-cornered stylus and then baked; some were flattened by means of a seal rolled over the inscription before being baked. The collection is assigned to the late dynasty of Ur, 2700-2500 B. C. They are reckoned from the year or the year after a certain king succeeded to the throne, or from an occurrence which took place during his reign.

The tablets refer to the administration of large temple properties, to agriculture and stock raising, to trade, commerce and industry. They contain receipts, expense lists, pay lists, income lists, lists of animals (temple herds), lists of officials, account lists, etc. All testify to the eminently agricultural and pastoral character of this ancient principality, centuries before Abraham's time.

Each of the following tablets has been carefully and correctly

interpreted and translated by a great authority on the subject, the translation is free with each tablet. All are in very fine condition:

- 471 —Tablet. Cattle account. Mentioning, "1 large ass, his price 5—Lu—the scribe Lugal-azagzu from Lukalla (received). Rev. "With the order (tablet) of Us, Year when the throne Bel (Baal) was built." The tablet bears a seal, "Ur-Nitax, scribe, son of Lugal."
- 472 —Tablet. "3 Skins of Oxen, the 1. time, 2 skins of oxen. Lu. kal. la, the slave, 2 skins of oxen expended to the patesi, The year after the IP-official of Dagan built a temple." Seal reads, "Dungi, the Mighty hero and king of the 4 corners of the world. Ur—patesi is thy servant." Very fine black tablet.
- 473 —Expense Tablet. Obv. 32 Lambs of sheep, sent with a tablet; 2 lambs for God Sin, sent with Tablet, for God Sin of Ur dingir Ba-U. to the priest, by order of the king, for Bel and Sin. 20 Sheep, sent with a tablet of Ur-Uru; 2 Lambs of sheep, sent with a tablet of Ur-Bau, priest, 1 sheep sent with a tablet of Pipiti. - 475 —Tablet. "3 full-grown light-colored oxen, 2 cows, two years old, 20 full-grown sheep, 1 lamb, have been brought for the king." Rev. "With the tablet of the patesi, the year when (the king) priest of Nannar was declared." Gem piece.
- 476 —Income Tablet. "1 Lugalani, the annual growth of the palm-tree, a gift for the king for the year Lu-udu, chief shepherd (has brought)." Rev. "The year when (the king) the ship to god En ki consecrated." Very fine piece.
- 477 —Expense Tablet. Obv. "5 full-grown oxen, a monthly offering, each at 20 qa of gab-cereal; 2 cows, giving milk 4 days, each at 12 qa of gab-cereal; 6 young bulls—present—each at 6 qa of gab."
